

Run Your Entire IVF Clinic on a Single Platform.

From the first appointment to live birth—every patient, every cycle, every embryo tracked securely on a 100% IVF-purpose-built system.

100%
IVF-Purpose Built

20+ Modules
Out-of-the-Box

Multi-Language
Engine

1st Year Free
Support Included

Built for IVF Clinics—and Nothing Else.

Generic Hospital Management Systems

Patient Records:
Isolated individual files.

Clinical Workflow:
Standard medical coding.

Lab Integration:
Basic text results.

Architecture:
Rigid, generic reporting.

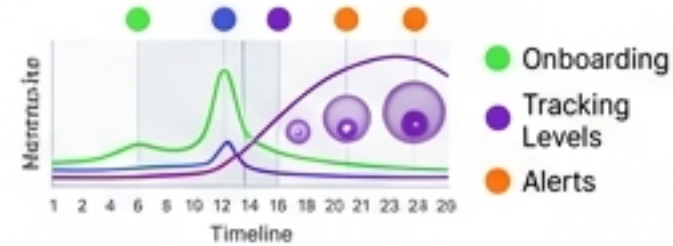

IVFID Clinic Management System

Patient Records:
Linked Couple/Partner Cards
+ Donor/Surrogate profiles.

Clinical Workflow:
Day-by-day follicle tracking,
hormone follow-up, and
specific cycle protocols.

Lab Integration:
Dynamic embryo tracking,
semen analysis, PGT results,
and tank control.

Architecture:
Modular, 20+ specialized out-
of-the-box IVF modules with
real-time success rate KPIs.

For Clinic Owners & Medical Directors:
Eliminate the gaps where
critical data is lost.

The Connected Ecosystem Map.

The Patient Journey:

Onboarding

Stimulation

Lab

Transfer

Outcome

First Contact: Frictionless Onboarding and Scheduling.

The screenshot displays a medical software interface with two main panels. The left panel is for patient onboarding, featuring fields for 'Kadın Hasta Bilgileri' (Female Patient Information) and 'Erkek Hasta Bilgileri' (Male Patient Information). It includes checkboxes for 'Yeterli İyustülo', '16 Günüle Biniyor', 'Seçik Tutuldu', 'VP', and 'Uyen'. A callout box points to these checkboxes, stating 'Linked Couple Records & Donor/Surrogate Checkboxes.' The right panel is titled 'Günlük Randevu Takip' (Daily Appointment Tracking) and shows a calendar view with columns for 'Sast', 'Doktor', 'Nasta', 'Telefon', 'Dosya No', 'Kategori', 'Oda', and 'İşlem'. A callout box points to the calendar, stating 'Conflict Detection & OPU Load Calendar.' Below the calendar is an 'Integrated Document Vault' window showing a list of documents with fields for 'Cole', 'Category', 'Document ID', and 'Explanation'.

For Clinic Managers & Front Desk:
Complete front desk control in a single screen.

Connected Clinic Blueprint

Comprehensive pregnancy tracking through to delivery details.

For Clinical Teams & Patients: A unified clinical history, secured from day one to delivery day.

The KPI Engine: Turn Raw Data into Clinical Decisions.

Flexible, real-time reporting across clinical success rates, lab performance, doctor productivity, and financial metrics. **One-click Excel export.**

 **For C-Suite & Investors:** Total operational visibility. Stop guessing, start benchmarking.

Advanced Analytics: Protocol Benchmarking & Lab Yield.

Which protocol works best for my older patients?

Age Group - Protocol Success Matrix

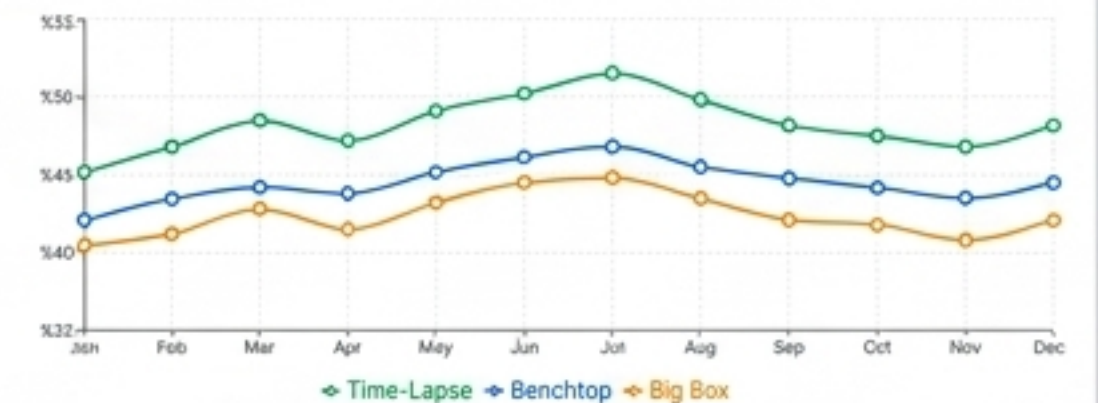

Age Group / Protocol	Antagonist	Long	Short/Flare	Natural	Mini-IVF
< 30	%58	%55	%52	%42	%45
30-34	%52	%49	%46	%38	%40
35-37	%44	%42	%40	%32	%34
38-40	%35	%33	%32	%25	%28
41-42	%25	%23	%24	%18	%20
> 42	%15	%14	%16	%10	%12

Are our new incubators improving blastocyst rates?

Incubator Detailed Performance Comparison

Incubator	Cycles	Fert. %	Cleavage %	Blast. %	Quality %	Implant. %	Pregnancy %	Live B. %
EmbryoScope+ (Time-Lapse) Vitrolife	567	82.5	94.2	58.5	45.2	32.8	48.2	42.1
Gerii+ (Time-Lapse) Genea Siemedk	234	80.8	92.2					
Benchtop (It-Systems) CooperSurgical	456	78.5	91.5					
Benchtop (Planer) Planer	289	77.8	90.8					
Big Box (Thermo) Thermo Fisher	234	76.2	88.5					

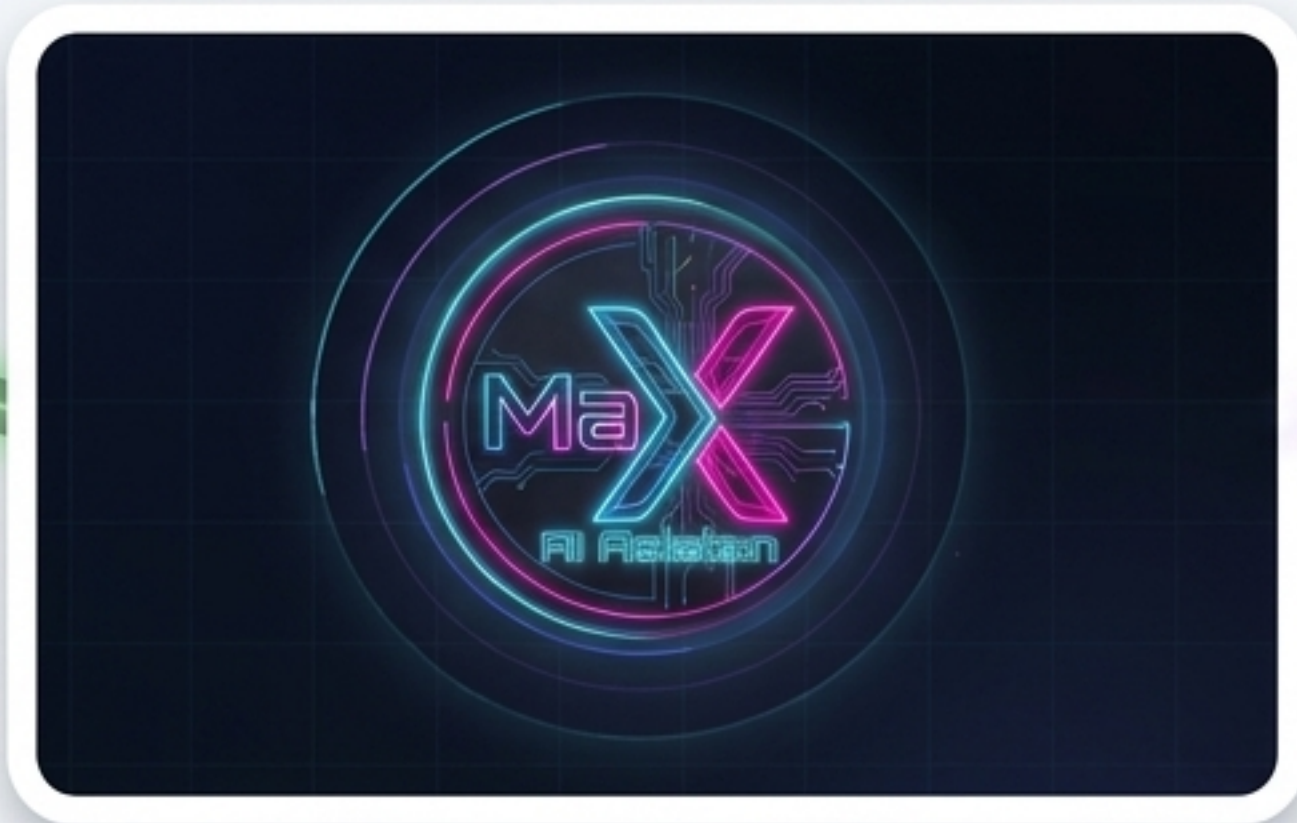

Incubator Monthly Pregnancy Trend

For Medical & Lab Directors:

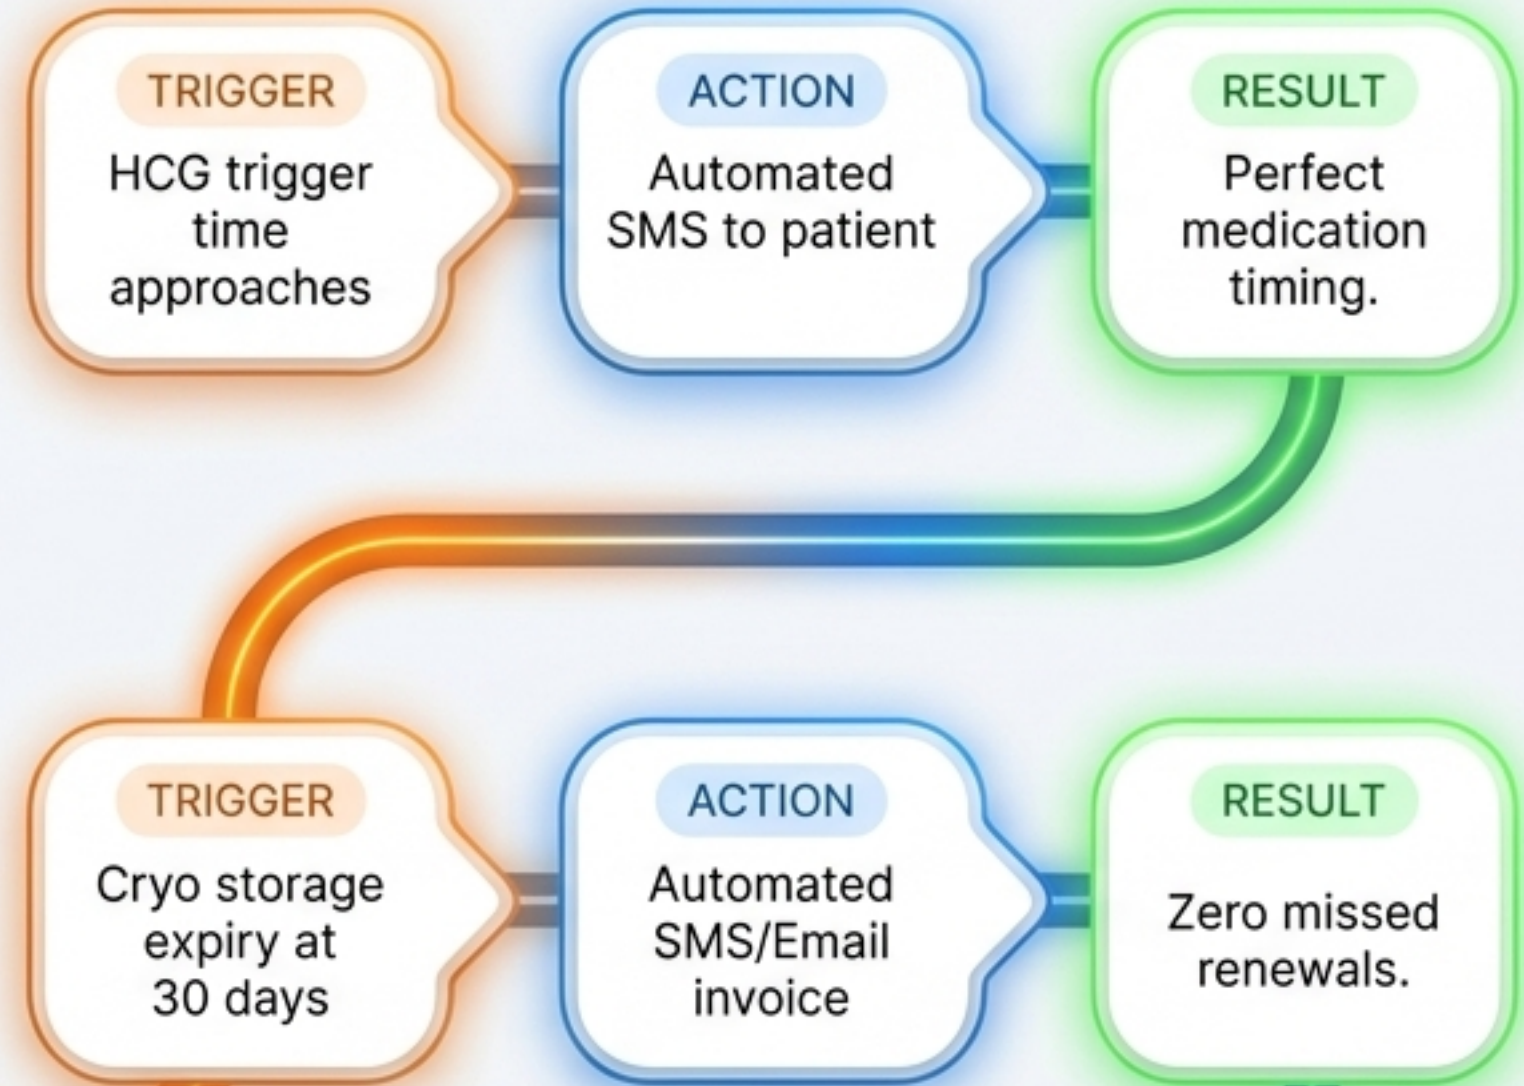

Instant access to peer-review quality data matrices, automatically generated.

Automate the Routine. Elevate the Care.

MaX Built-in AI: An optional built-in AI agent that knows your clinic's data. Ask questions, get instant insight without leaving the CMS.

What is the 2025 fresh ET success rate?

 **For Clinic Staff & Patient Experience:** Save hours every week. Patients never miss a critical step.

Enterprise-Grade Security & Regulator-Ready Compliance

Architecture:

Microsoft SQL backbone for ultimate reliability.

Data at Rest & Transit:

SSL encryption end-to-end.
Sensitive patient data strongly encrypted at rest (AES-256, TLS 1.3, SHA-512).

Access Control:

2-Factor Authentication (2FA) required at login.

Resilience:

Automatic daily backups with 30 days of rolling history.
Restore any state, any day—no extra setup required.

For IT Directors & Compliance Officers:

Bank-grade data protection, deployed out-of-the-box.

The Borderless Clinic: Granular Control & Global Reach

Granular Access Control

The screenshot displays a user management interface with two main sections: 'Roller' (Roles) and 'Menü Yetkileri' (Menu Permissions). The 'Roller' section lists roles such as 'Astrin', 'Döktör', 'Hasta Kabul', 'Muhasebe', and 'Sektörler', each with a 'Yeni Rol' button. The 'Menü Yetkileri' section shows a list of menu items with checkboxes for permissions like 'Tunc', 'Görülebilir', 'Ekle', and 'Sil'.

Users see only what their role allows. Tailor exact view, edit, and delete permissions for every department.

Instant Multilingual Engine

The screenshot shows a 'Desteklenen Diller' (Supported Languages) interface. It includes a table with columns for 'Dil', 'Bayrak', 'Kod', 'Ad (Englize)', 'Yeni Ad', 'Varsayilan', 'Durum', and 'İzlenim'. Below the table, there is a note: 'Not: Test için dil eklendikten sonra, yeni belge kamuna Müşteriye çeviri işlemlerini oluşturabilirsiniz.'

Dil	Bayrak	Kod	Ad (Englize)	Yeni Ad	Varsayilan	Durum	İzlenim
1		tr	Türkçe	Türkçe	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3		en	English	English	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5		ru	Russian	Russian	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Perfect for Health Tourism. Every form and document can be printed in any active language. Adding a new language takes minutes

For Operations Managers: Scale your workforce and your patient base without system friction.

Flexible Licensing. Deployed Your Way.

Cloud Deployment

IVFID Secure Cloud.
Access from any browser.
No software install, no IT headaches.

On-Premise Deployment

Runs on your own physical servers.
Complete internal control over
your infrastructure.

Accounting

Patient balance, invoicing,
and cashbox tracking
integrated natively.

Stock Management

Multi-warehouse, expiry
alerts, and patient-based
consumption tracking.

SMS API

Plug in your local SMS
provider automatically for
seamless communication.

 **For Finance & Procurement:** Pricing scaled to your clinic's budget—your operation defines the package.

Make the Switch Seamlessly.

1. Legacy Data Review

We map your historical records from older software or Excel.

2. Clean Migration

Data is validated and loaded into IVFID without disrupting your clinic.

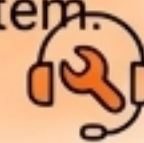

3. Go Live with Backing

Complete onboarding training provided for your team.

First Year Support is FREE

Backed by the IVFID engineers who built the system.
24/7 online support.

IVFID
WITNESS SYSTEM

**Bring zero mix-up safety
to your clinic today.**
